Course Entry Requirements

ISO 27001:2022 Lead Auditor Online Blended Course

SEQM Training recommends that delegates have the following prior knowledge before attending this course:

Foundation Course

CQI and IRCA Certified ISO/IEC 27001:2022 Foundation (ISMS) (FD134) or equivalent

Management Systems

Understand the Plan-Do-Check-Act (PDCA) cycle

a) Information Security Management

Knowledge of the following information security management principles and concepts:

- Awareness of the need for information security;
- The assignment of responsibility for information security;
- Incorporating management commitment and the interests of stakeholders;
- Enhancing societal values;
- Using the results of risk assessments to determine appropriate controls to reach acceptable levels of risk;
- Incorporating security as an essential element of information networks and systems;
- The active prevention and detection of information security incidents;
- Ensuring a comprehensive approach to information security management;
- Continual reassessment of information security and making of modifications as appropriate.

b) ISO/IEC 27001

Knowledge of the requirements of ISO/IEC 27001 (with ISO/IEC 27002) and the commonly used information security management terms and definitions, as given in ISO/IEC 27000, which may be gained by completing CQI and IRCA Certified ISO/IEC 27001:2022 Foundation (ISMS) Training course or equivalent.

Work Experience

- It is recommended (but not essential) that anyone wishing to attend this course has some work-based experience within Information Security or Internal Auditing in advance of registering for this training course.

Please ensure the following are available to you during the course:
Access to Copy of ISO 27001:2022 ○ It is recommended that each participant should have access to their own copy of the standard for the course. This is not provided by SEQM Training.
